

## This Time

Curtis Stigers

Love makes us laugh  
Love makes us cry  
We're up and we're down  
We don't understand why  
But we take it  
We're just tryin' to make it

Sometimes we lose touch  
With our feelings inside  
We put up our walls  
When we injure our pride  
And we break up  
Only to make up

Easy love has never been easy  
I've been searchin' tryin' every door  
'Till I finally found what I was looking for

And it takes what it takes  
We all make mistakes  
There are so many mountains to climb  
But I know that our love will survive baby  
This time

We heal from the pain  
And we learn from the past  
The future is ours  
Girl we've found it at last  
We both know it  
We can't help but show it

Baby so many times when the road got rough  
We thought that we both had enough  
But we kept it alive  
Somehow the love wouldn't die  
It just wouldn't die

And it takes what it takes  
We all make mistakes  
There are so many mountains to climb  
But I know that our love will survive baby  
This time
