

Girls like that  
Girls like that don't go for guys like us  
I wanna see the facts  
And she says simply, "No, ah, ah"  
The Julio Iglesias, he just ain't scientific

I'll keep on lookin' for that lovin' feelin'  
I'll keep on lookin' for that lovin' feelin'  
All of the chemists and witch doctors they know  
What I'll never ever know

Now listen, girls like that  
Girls like that don't go for guys like us  
I still wanna see the facts  
But this time she's serious

She says there's too, too many worlds  
Too many worlds wrapped up in science fiction  
Tiny boys and tiny girls  
I may well live to regret this in the morning  
For I am considering a move to South America

To keep on lookin' for that lovin' feelin'  
I'll keep on lookin' for that lovin' feelin'  
All of the chemists and witch doctors they know  
What I'll never ever know

They know, they know, they know, that lovin' feelin'  
They know the chemists and witch doctors know it  
They know, they know, they know, that lovin' feelin'  
That feelin', that feelin'

Woo, hoo, hoo, hoo, hoo, hoo, hoo  
Woo, hoo, hoo, hoo, hoo, hoo, hoo
