

# Lost Forever

Custard

Sit all alone here in the middle of my room  
I count the last days that I have before my doom

When will it be over ?  
When will he appear ?

It started two weeks ago when I felt really down  
I saw no light ahead I tried to leave somehow

Find no way out  
My heart's beating very fast  
Get me out of here  
I want you to

Take my life  
That I can leave it all behind  
Accidental death  
Will blow my life away

I'm so scared  
That my time to die has come  
I'm so scared  
I see your shadows all around

The new love I found makes me see the light again  
But I paid the bill of death no way to escape my fate

Where are you ?  
Can't you hear me calling ?

Just like a rat I hide in holes beneath the rubbish  
Give me a chance to enjoy my life again

It drives me mad  
I'm on the way to lose control  
I'll lose the best I've ever had  
I'm begging you

Save my soul  
Keep your taxes that I paid  
Keep me alive  
I know you're somewhere out there

Finally I swear - if I'll survive this nightmare  
That I'd never run away the problems I might have
