Corner of the Sky

Wisdom from a stranger Legacy of danger This is where the answer lies Underneath the rainbow Chasing where the gold go Acid smiles, distant eyes

Oh, eyes to the middle Don't try to change your mind What you love is right in the middle Don't try to change it

If you see a comet In the corner of the sky tonight Maybe you can catch it And keep it secret 'til the end of time

Meeting in the boardroom Drop you in the cauldron You're the means, you're not the end Facts and figures suit you Jackets made of voodoo Sign the line, it's in the sand

Oh, eyes to the middle Don't try to change your mind What you love is right in the middle Don't try to change it

If you see a comet In the corner of the sky tonight Maybe you can catch it And keep it secret 'til the end of time

Oh, it makes me wonder if you'll ever see If you'll ever see
