

## Safe Ride

## Cute Is What We Aim For

No one is harder on me than myself  
Or so it seems  
And some say that you are my curse, my own worst enemy  
I think they're wrong

I never thought our life could be like this  
I never thought...

I'll be your safe ride home when you call me  
I'll be everything and more  
When you call my name

I thought "No one is smarter than me,  
No I don't need anyone's help"  
Or so it seems (I was so wrong)

You've changed me for the good  
They never understood  
But even if they tried I doubt they could  
So take my nervous hands  
Then we could take a stand  
We don't have to live by their demands, yea

I never thought life could be like this  
I never thought...

I'll be your safe ride home when you call me  
I'll be everything and more  
When you call my name

I'll be your safe ride home when you call me  
I'll be everything and more  
When you call my name

When I'm with you there's no worries  
When I'm with you there's no shame  
When I'm with you I'm secure  
Which usually begins the grain

They could say we lack the progress  
They could say that we're a mess  
They could say we'll never make it  
I know we're better than their test  
And I don't hear them anyway

I'll be your safe ride home when you call me  
I'll be everything  
When you call my name

I'll be your safe ride home when you call me  
I'll be everything everything everything everything everything and  
more

I'll be your safe ride home when you call me  
I'll be everything and more  
When you call my name
