### Cutting Crew

(Dance you bastards!)

The windows are open and I've been wide awake for so long  
The waiting is over cause I've been holding out for so long (so  
long)

Cause I can feel it now it's rushing over me  
Cause I've been waiting so long, so long

Christians

Can you hear me  
Are you lonely  
Or is this just another lazy day

Christians

Are you out there  
Can you hear me  
Is this just another lazy day

The silence has broken

The waiting is over cause I've been wide awake for so long (so  
long)

Cause I can feel it now it's rushing over me  
Cause I've been waiting so long, so long

Christians

Can you hear me  
Are you lonely  
Or is this just another lazy day

Christians

Are you waiting  
Are you out there  
Or is this just another rainy day

Christians

Can you hear me  
Are you lonely  
Hear me  
Can you hear me, hear me  
Just another rainy day

Christians

Can you hear me, are you out there  
Watch you push us  
Or is this just another rainy day
