

## Everything But My Pride

Cutting Crew

If you should walk away  
Take this broken heart  
And if you walk away  
You'll never know what's left behind  
Go on and get away  
Don't you leave a trace  
And as you walk away  
You can take most every...

Everything but my pride  
Everything but the rings on my finger  
Everything but my pride

I like the room this way  
I like this bed unmade  
We never laughed enough  
But you laugh alone today  
So don't you ever say  
You feel that you've had all you can take  
You've already taken...

Everything but my pride  
Everything but the rings on my finger  
Everything but my pride  
Everything but the rings on my finger

I never thought it'd come to this  
(Keep walkin')  
Never known a night like this  
(Keep walkin')  
Never thought you'd walk away  
(Keep walkin')  
But you did  
When we'd almost made it

Everything (but my pride)  
Everything (but the rings on my finger)  
Everything but my pride  
You can take everything but you'll leave me  
Leave me with my pride  
Everything,  
Everything but my pride  
Everything but the rings on my finger
