

# I Hate Therefore I Am

Cyclone Temple

Close your eyes and make a wish  
Wish upon a star  
Open your eyes and it's gone

What does it take for us to see eye to eye  
Is it too late for the future of mankind  
Tomorrow's future driven by old world hate  
Is there no end to the pain we cause

[Bridge:]  
The blind will lead  
The ignorant will teach  
The breasts that feed sow the seed

Superior Inferior Cut the bullshit  
Hate not my child it's a war that no one wins

[Chorus:]  
Will it always be where kind sticks to kind  
Why do we turn away from the things we don't understand  
Will it always be where like sticks to like  
Why do we close our heart when someone else needs a helping hand

We stand by while humanity's declining  
No respect for fellow mankind  
Sometimes I laugh Laugh to keep from crying  
The only time we're equal's when we die

[Bridge / Chorus]

They say do unto others  
But they only do as we do  
They say god said love one another  
Then distort their view
