

# In God We Trust

Cyclone Temple

The stage is set  
Backdrop lit  
Testing One Two Three  
Now don't forget when I wave my hand  
Flash the price across the screen

And when I raise my eyes towards the heavens  
Don't be late with the cue  
And when I raise my fist I want a clap of thunder  
Instilling fear is how I rule

[Bridge:]  
Mindless people follow your master  
Multitudes of lambs to the slaughter  
Like lost children searching for an answer  
While I feed on you like cancer

[Chorus:]  
Can you feel me  
Touch you Heal thee  
Almighty dollar gives me strength in power  
In God We Trust

I am pure I have no faults  
I am a man of truth  
Take these words from this book  
Interpret them for my use

[Bridge / Chorus]

Headlines rage  
Followers divided  
Tell them in whom they should believe

Pity me people  
For I am only man  
Never again will I deceive

Drunken scap fleecing his flock  
They're with me all the way  
My kingdom's done from what's become  
Is it me or god that they praise
