

## Public Enemy

### Cyclone Temple

Telling the truth is like the edge of a knife  
Hit the wrong nerve it could cost your life  
All heard him  
Most feared him  
The media slants the truth  
Said he's the enemy

[Bridge:]

You're a rattle on the snake of democracy  
Can a free man speak or is he really not  
Just a boil on the ass of all decency  
See what King and X got Shot

[Chorus:]

Just a man teaching non-violence  
A sign of fear for those who rage free  
We want the truth and nothing but the truth  
We want the truth and nothing but  
Just a man who said let freedom ring  
She'd a tear for those who killed me  
We want the truth and nothing but the truth  
We want the truth and nothing but

Why is it that those who speak of unity  
Can't escape the grip of fatality  
Pose a threat without the use of deadly force  
For those who follow lynched with no remorse

[Bridge / Chorus]

And they marched  
Bloody but unbowed  
Against the grain  
Only the strong survive  
Hear the battlecry  
We shall overcome  
Fight for the dream even when I must die
