

# I'll Be Your River

Cyndi Lauper

If you need water, I'll be your river  
Like a wave I will come over you  
You need someone to fall into, I'll be your river  
And my love will carry you through

You like the flame and you are drawn by desire  
Watchin' and waitin' in line for your turn  
I've learned to walk with my back to the fire  
I like the heat but I don't wanna get burned

And if you need water, I'll be your river  
Like a wave I will come over you  
You need someone to fall into, I'll be your river  
And my love will carry you through

Here stands a fortress built with great walls of silence  
Ready to crumble at the slightest word  
Finding the right one is becoming a science  
I'd like to scream but I ain't gonna be heard

And if you need water, I'll be your river  
Like a wave I will come over you  
You need someone to fall into, I'll be your river  
And my love will carry you through

What if all these fields  
That we both fly into  
Melt away and disappear?

If you need water, I'll be your river  
Like a wave I will come over you  
You need someone to fall into, I'll be your river  
And my love will carry you, my love will carry you  
My love will carry you through
