

Unconditional Love

Cyndi Lauper

I wanna fall into you
And I wanna be everything
But I'm not sure I know how
You want me to
Then I see you and remember
I lose faith and I lose ground

Unconditional love
Unconditional love, love, love
'Cause it always seems you're taking
Me the wrong way
It doesn't matter what I say
But if you could read my mind you'd see
I fight myself all the time
When I see you I surrender
Unconditional love, love, love
Unconditional love, love

I got my head up in the clouds, oh
I ain't got no sense of direction now
Standing on a wilder shore
I wanna lie next to you

I imagine what the clouds look like
And I wanna do everything you want me to
Sometimes I wish at the sky

When I see you I remember
Unconditional love
Unconditional love, love, love
When I see you I surrender
Unconditional love, love, love (2x)
Unconditional love When I see you I surrender...
