CYNE

Spanish fly line for line as I'm ripping the rhyme
Precise styles and the ? we be the sign
Showing you hope out of life's slippery slopes
Adolescent teens turn from God and raise coke
That ain't the answer, stress of the world giving me cancer
But f**k that, moving through streets like Black Panther
The world stands still, black youth living in landfill
No way to pay the bill so it's now kill or be killed
But that mind state is irate raising up all the crime rates
We need to sit back, let the mind revelate
Regulate hate of self and get immaculate wealth
Releasing your delf without all the ? shelf

[Chorus]

Cause life ain't no crystal stair, we just here
Ignorance is on the rise and n****s just don't care
Ain't fair how we living, money is just spending
We need to slow down and meditate for a minute

Cause life ain't no crystal stair, we just here
Ignorance is on the rise and n****s just don't care
Ain't fair how we living, money is just spending
We need to slow down and meditate for a minute

[Verse 2]

I let my light beam, dodging and weaving life's scheme
Meet the mic fiend, I'm assassinating pipe dreams
Hundred foot wall, a revolution's at your door
When can't we all just get along, say I'm boring
And we want freedom, real freedom, that's all there
For me and my comrades, we here to blast off, my shots echo
I'm bringing it back like retro
Cause centuries of memories I can't let go
Mostly y'all heard of us, the Jim Crow murderers
Black activist with a black active fist
Ignorant fools catch a back snapping ?
It's been a long time, Cyne we shouldn't left you
You're without a conscience ? step to
Just populate ? Babylonians behold this son of a gun that's not phony and

[Chorus]

[Verse 3]

As I walk through the valley of the shadow of death
I sidestep cause you never know when your time is next
So I calculate my thoughts and put em on cassette
So my future seeds can hear me on tracks I bless
Nevertheless I progress against darkness
A one-man army without the user technology
Quite possibly my words spawn philosophy
But philosophical thoughts ? can't follow me

[Verse 4]

Nothing's prettier than peace spread love without azaleas
Westerners are trying to be God like Branch Davidians
I can't respect that, my mind just neglect that
War s**t, I bring this pistol, the full clip
I can't tire, with God I plan higher
I started civil war, confederates catch fire cause
