Cypress Hill

Born to get busy, born to get busy baby  
Born to get busy, born to get busy baby

I'm the the stiff and I do get nicer  
Up the pussy when we in the same party, what  
We can do this bro, we can't be maxin'  
The figures is useless, unless we're taxin'

This is a perfection and my tribe's the cash dump  
Known as a musician, imitator act up  
Nobody's kid brother, that means I'm up for this task  
And I set out from the beginning, to kick on the scratch

Using modern technique, I place a beat in a rap  
I went to learn acquire knowledge of a scholar went to college, all  
Comes very handy when it comes to pushin' shovin' and stuff  
Then ask who is he though, I'm not the sissy

I'm stiff to neutral brother, and I'm born to get busy  
Let us start to freak you and we'll make you feel alright  
When you come to Cypress Hill  
Make sure that you're down with the tribe

'Cause we're born to get busy, born to get busy baby  
Born to get busy, born to get busy baby  
Born to get busy, born to get busy baby  
Born to get busy, born to get busy baby  
B-B-Busy

As I stroll the ever ways of the Buddha masters  
As I smoke my joint I feel one with the earth  
But a brother like me keeps on walkin to get to the  
Next sign then blaze the next joint

{The, physical effects of marijuana  
The first sensations may be felt instantly  
After having smoked grass or an hour after having eaten  
Usually, they creep slowly into this stoned condition  
Inch by inch, sliding upward, but to beatnik  
The effects may come upon you, suddenly  
And startle you full force}

{(The, physical effects of marijuana)  
(There are four basic types of marijuana)  
Psychologically, sometimes the early psychological stages  
Coincide with the early physical stages experienced while stoned  
The famous 'Mind Expansion'  
Comes after the famous physical sensation  
Grass, heightens and distorts  
For example, profound revelations  
You may think you have profound revelations, only to discover}
