

# Lick a Shot

Cypress Hill

Oh yea it is  
Color is not important  
Lick a shot  
Oh, aah  
Comin' at ya  
Fire

Zippedy do da, zippedy hey  
Cried oh my, wanna get that punk with my AK  
And get on the way  
On the mission, puffin' on a fat ass jay  
Prude, you can't hang  
Flash back on the skills when I used to bang  
On the corner  
I'll warn ya  
Gonna roll on ya  
Fool  
Hit ya with a golden rule  
Don't turn your back on the street  
When I hit that corner, feel the concrete  
If ya push that by like nothin'  
Watch me turn to a psycho all of a sudden  
Blastin' at these fools with a passion  
Look at the clock when it's time for some action

Let the gatt hum  
(Lick a shot)  
So I let the gatt hum

Let the gatt hum  
(Lick a shot)  
So I let the gatt hum

Sunday mornin'  
Wake up it's stormin'  
Raindrops fallin' on my head, it's pourin'  
Cats an' dogs  
Pigs in a wagon  
Lookin' for the Afro, one that's saggin'  
Scooby-Doo  
An' fucked down town  
Ploy me  
Don't let your punk ass try me  
Gonna take more  
Then you better call your backup team  
And wait for ya crew  
I'm the one flippin'  
Keepin' the clip  
On my hip an'  
Just watch your back if you're slippin'  
Uh  
Where did that twenty two  
Come from?  
When the bullet past through my lung  
I've lost my breath I'm winded  
I've been hit by a slug that wasn't intended  
I hear thunder

I wonder  
If a nigga like me's goin' under  
Take a number

Let the gatt hum  
(Lick a shot)  
So I let the gatt hum

Let the gatt hum  
(Hum)  
(Lick a shot)  
So I let the gatt hum

Had a bad dream  
Woke up in a casket  
Now I can't even get back at the bastard  
Bullshit  
This pine box  
Ain't strong enough to contain the Afro Marx  
Critical bell rings  
Snapped out the dream  
What the fuck's up with the funny red beam  
Pointin' at me  
I got no strap G  
What now? Gotta duck, they're gonna gatt me  
Bam, I feel numb  
Where did the shotgun blast come from?

Let the gatt hum  
(Lick a shot)  
So I let the gatt hum

Let the gatt hum  
(Lick a shot)  
So I let the gatt hum
