

Africa

D'Angelo

Africa is my descent
and here I'm far from home
I dwell within a land that's meant
meant for many men not my tone

The blood of god is my defense
let it drop down 2 my seed
showers 2 your innocence
2 protect U for all eternity
and with this wood I beat this drum
and we won't see defeat

From kings 2 queens becomes a prince
knowledge wisdom is
understanding what we need

Ever since the day U came
my whole world began 2 change
I knew then 2 dedicate my life,
4 your own
everyday I see U grow
and remember what U already know
I receive the love
that radiates from your glow

From which U came was love
and that's how it all should be
U and my soul are 1
through all the time and history
