Love To Me Is Sin

Hey baby won't you give me away Friedns tell me you're an easy lay Don't fight back bitch, ''cause you know I'm gonna win It's cold outside, so let me in So you think you're gonna get away I just got one thing to say Gonna like what I give you, gonna like it bad Don't like what I give you, gonna make me mad

Adam and his apple Billy and his Gin Love to me is sin Poor little gutter girl all alone Wandering the streets without a home She'll sleep in the street She'll sleep in the trash Anything for a little cash Easy to find, Just follow the stench On the ground, or on a park bench At the show she'll sleaze around She is the smelliest bitch in town

I had a dream, I was this big I crawled into your ned And did a little jig I played it cool, I made a wish And I woke up My whole body smelled like fish...fish!

I had a dream, I grew in size I was smashing people Just like they were flies I played it cool, I made a wish And when I woke up My whole body smelled like fish...fish!
