

## Venus De Milo

D.I.

You see I first felt death as a very little kid  
Those bloody bloody nightmares I wish I had hid  
You can see beauty being close to evil  
I saw Venus De Milo  
Twisted like a twisted brain  
Was it hate or was her love insane?  
Now they're gone but I remain  
I'm just like her now, I'm just like her, I'm just like  
She pulled me into the deat trap, pulled me into the death trap  
Only took 3 times  
She pulled me into the deat trap, pulled me into the death trap  
Only took 3 times, 3 times in her head  
So psychotic, neurotic breakdown  
I stood and laughed as the body fell down  
Pulling wings off little birds  
Smashing, remembering thinking of the scene  
When I woke I was screaming  
No one could understand where the truth was  
I was the only one, I was the jealous one  
She pulled me into the deat trap, pulled me into the death trap  
Only took 3 times  
She pulled me into the deat trap, pulled me into the death trap  
Only took 3 times, 3 times in the head  
The lone was out, I was alone  
All bu myself, I was damned no home  
My parents murdered everything thrown away  
Life is such a game and I'm not really sure I wanna play  
I'm a bad seed I have a damaged brain  
There's no way back only death will heal me
