Violence in the street, it's alright with me
It just depends who it's against
I'm not against you, I'm not against me
I'm only against the enemy

I'm not against you
I'm not against me
I only want
Reality

I can't help what I'm saying
I'm caught in your frustration
No time to think ahead
No time to get ready

Gotta, gotta, gotta - got no time
No time, no time for you
Gotta, gotta, gotta - got no time
