

Bombs away

D.O.A.

Hey hey, get out of my way just got back from the u.s.a. Take a look at the t.v. screen see the visions of the western dream. A war fought with compassion a calculated reaction.

Stay tuned and see what's seen. Lotta stuff, can't get enough. Lots threats an' heroes too. More fun than donahue and there they go "it's bombs away." And there they go "it's bombs away." It's good to know we're fighting clean against an enemy, ruthless and mean. We only hit him where he carries his gun. They carpet bombed everyone.

Stay tuned and see what's seen. Lotta stuff, can't get enough. Lots threats an' heroes too. More fun than the price is right and there they go "it's bombs away." And there they go "it's bombs away." And there they go, falling out of the sky. See the fireworks, as the planes go by. Skill and speed and computer brain. But there ain't no mikes on the screams of pain.
