

Brainwash

D.O.A.

We're gonna tell you what to do we're gonna tell you where to be we're gonna tell you who you should know we're gonna tell you where to go

I won't do it - yes you will you can't make me - yes we can I won't do it - yes you will it's a brainwash brainwash, brainwash it's a brainwash we will make you believe we will make you crawl inside we will make you twist and vomit we will make you wish you were dead

We have to run your life we have to take your soul we have to crush your spirit we have to have control I got no choice - no you don't I got no right - no you don't I got no choice - no you don't
