

The agony and the ecstasy

D.O.A.

The agony and the ecstasy (2x)

Well being alive is tough you know
One minute you're up and the next your low
But you let the chips fall where they may
Cos every dog is gonna have its day
'Til you finally get that one shot
To show the world just what you got
You take your chance, you make your deal
But all the time, you know, you know, you're gonna feel

The agony and the ecstasy - some gotta win and some gotta lose
The agony and the ecstasy - So close, yet so far
The agony and the ecstasy - But you might get lucky, you just might
You gotta dig, you gotta fight
You gotta try to make it right

Yeah, come on make your move
What else is left, that you got to lose
Let 'em know, ya don't give a damn
This time you're gonna make a stand
It's now or never, pour it on
Ain't gonna worry, about the right or wrong
Snatch victory from the jaws of defeat
Cause you know, you know, what they're gonna eat

The agony and the ecstasy - some gotta win and some gotta lose
The agony and the ecstasy - So close, yet so far
The agony and the ecstasy - But you might get lucky, you just might
You gotta dig, you gotta fight
You gotta try to make it right

The agony and the ecstasy - Well, some gotta win and some gotta lose
The agony and the ecstasy - So close, yet so far
The agony and the ecstasy - But you might get lucky, you just might
You gotta dig, you gotta fight
You gotta try to make it right
(2x)

The agony and the ecstasy (4x)
