

Lonely Nights

D-Side

No more lonely nights

For everybody that find's their way
Someone is lost
For everybody who feels the fear
I'll take half the pain that you hide
Inside

Chorus:

If it's meant for you, it won't pass you by,
Don't live your life on the line
Like a carousel, it'll turn around, so many times
We might change a bit, doesn't everyone,
Lost in the moment we find
And madness is right, when you're by my side,
No more lonely nights

So many words that I meant to say
Don't come out right
So many chances I have to take
Girl if I've never told you before
Your beautiful

Chorus

Everytime that we kiss you take me breath away
I could talk for the world but you can silence me
I get lost in your arms when you're holding me
No more lonely nights

If it's meant for you, it won't pass you by

Chorus(
