

## Lonely Nights

D-Side

No more lonely nights

For everybody that find's their way  
Someone is lost  
For everybody who feels the fear  
I'll take half the pain that you hide  
Inside

Chorus:

If it's meant for you, it won't pass you by,  
Don't live your life on the line  
Like a carousel, it'll turn around, so many times  
We might change a bit, doesn't everyone,  
Lost in the moment we find  
And madness is right, when you're by my side,  
No more lonely nights

So many words that I meant to say  
Don't come out right  
So many chances I have to take  
Girl if I've never told your before  
Your beautiful

Chorus

Everytime that we kiss you take me breath away  
I could talk for the world but you can silence me  
I get lost in your arms when you're holding me  
No more lonely nights

If it's meant for you, it won't pass you by

Chorus(
