Believe In What You Say

You give me many names Change my weary ways This is why I call you «shine»

Change the colour tone Re-arrange my home Taking over all my mind

The way you wear your smile When you're unaware Makes me wanna squeeze you tight

Why can't you believe The way you get to me Do I have to sing all night?

Believe in what you say Believe in what you do You make me happy

Why are you uptight? Why are are you so tense? What are you afraid of doing?

Trust me when I say: Everything is ok - any kind of mood you're in

You're so beautiful When you're kicking back Nobody could take your place

Everything you feel And everything you think I can see it in your face

D'Sound
