

## Do You Like It

D'Sound

The rain and the moon and the sun  
are spelling your name  
Although you promised me it would be  
only a game  
Sometimes you lead me on  
just 'cause you need someone  
Sometimes I am the one you want  
Sometimes you let me win  
Sometimes I let you in  
Sometimes I'm so in love with you  
And you keep on playing  
Spinning me around, spinning me around  
And I keep on staying  
Spinning me around, spinning me around  
I say:  
Do you like it?  
Getting all excited  
Show and hide it  
Tell me, does it feel good?  
Sometimes I just pretend  
Sometimes you understand  
Sometimes you're tight beneath my skin  
Sometimes I fear you too  
Or I don't care 'bout you  
The room is tumbling all around  
The rain and the moon and the sun  
are spelling your name  
Although you promised me it would be  
only a game
