

## Play Me The Song

D'Sound

Sun is setting fire to the sky tonight  
Lucky are the ones who are not alone  
Lovely boy walked me home from the bar tonight  
I love his smile  
When he plays the guitar  
I'm saying;

Play me the song that your father taught you  
Fill me with peace  
Because I need it bad»  
Oh, wonderful sunset strikes me deaf and blind  
And I'm so relieved; there's a life after him

He was young and promised me the world, you know  
But inside I knew it wouldn't be  
Every goodbye is leading to a new hello  
Now look at me - with mister T  
I'm singing;

Play me the song that your father taught you  
Fill me with peace  
Because I need it bad»  
Oh, wonderful sunset strikes me deaf and blind  
And I'm so relieved; there's a life after.....

I still enjoy my sunsets  
And sunrises too  
Keep sitting here beside me and play  
Play me through the night  
Play me through the day
