

Give Me Your Hand

Da Buzz

Running through the night
To clear my mind
It'll give me time, to straighten things out
Everyone wants to find the meaning of life
I've looked all around, and I can't get it off my mind

Cause I wanna know
If I can trust you, give me your hand
I know it could help me, to understand
The doubts I have inside
Cause I wanna know
If I can trust you, give me your hand
I know it could help me, to understand
The doubts I have inside
Give me your hand

Can you hear me say, I'm on my way
And you've heard it before
But now I'm sure
Everyone wants to find the meaning of life
I've looked all around, and I can't get it off my mind

Cause I wanna know
If I can trust you, give me your hand
I know it could help me, to understand
The doubts I have inside
Cause I wanna know
If I can trust you, give me your hand
I know it could help me, to understand
The doubts I have inside
Give me your hand

Give me your hand, give me your hand
I wanna know now, I wanna know, I wanna know

Cause I wanna know
If I can trust you, give me your hand
I know it could help me, to understand
The doubts I have inside
Cause I wanna know
If I can trust you, give me your hand
I know it could help me, to understand
The doubts I have inside

Cause I wanna know
If I can trust you, give me your hand
I know it could help me, to understand
The doubts I have inside
Give me your hand
