

Live My Life With You

Da Buzz

You left, I never ever understood
That you meant the things
You said to me last night
Now I do
How could everything and so strange
You know, my feelings for you are for real
But still so strong

Sometimes it's better all alone
But this time it's wrong
Turn around, come back to me
Oh, baby baby baby baby baby

We belong together as one
Don't wanna wait, don't be afraid
We can work it out, without a doubt
We belong together as one
Even if some things I do can be misunderstood
I wanna live my life with you

Stay close, I choose the way I am
You make me open my eyes and realise
I have to change
I can't stand it anymore, and I won't
I'm ready to give my heart away
I'll show you today

Sometimes it's better all alone
But this time it's wrong
Turn around, come back to me
Oh, baby baby baby baby baby

We belong together as one
Don't wanna wait, don't be afraid
We can work it out, without a doubt
We belong together as one
Even if some things I do can be misunderstood
I wanna live my life with you

We belong together as one
Don't wanna wait, don't be afraid
We can work it out, without a doubt
We belong together as one
Even if some things I do can be misunderstood
I wanna live my life with you
