

Love And Devotion

Da Buzz

Come on! Come on!
And check it out

Come on get a little closer
And everything we'll do
We'll break the walls
I'm getting over
And spend the night with you

It's time for me to get to know you
It's time to get things roll
Better throw the ball
That you're holding baby
And I will let you know

Everything that you say
Is coming to me
Like a supernatural dream

If it's love that we feel
If you show me you're real
Let me give you the world I know
Love and devotion

If it's love that we feel
If you show me you're real
Let me give you the world I know
Love and devotion

Hey! Hey! Hey!
Na na na na na

Run away and you'll loose me
Take a chance and you will see
Don't give away
Your emotions baby
Better let me in

It's time for me to get to know you
It's time to get things roll
Better throw the ball
That you're holding baby
And I will let you know

Everything that you say
Is coming to me
Like a supernatural dream

If it's love that we feel
If you show me you're real
Let me give you the world I know
Love and devotion

If it's love that we feel
If you show me you're real
Let me give you the world I know
Love and devotion

If it's love that we feel
(Love that we feel)
If you show me you're real
(Show me you're real)
Let me give you the world in me
There is something
That I want you to know

Hey! Hey! Hey!
Na na na na na
Hey! Hey! Hey!
Na na na na na
Hey! Hey! Hey!
Na na na na na
Hey! Hey! Hey!

If it's love that we feel
If you show me you're real
Let me give you the world I know
Love and devotion

If it's love that we feel
If you show me you're real
Let me give you the world I know
Love and devotion

If it's love that we feel
If you show me you're real
Let me give you the world I know
Love and devotion

If it's love that we feel
If you show me you're real
Let me give you the world I know
Love and devotion
