

Out Of Words

Da Buzz

Aahhhh
Aahhhh
Out of worlds
Got nothing better to say
I really love you baby, baby
Aahhhh
Out of worlds

I'm, thinking of
Every single day I have with you
Please don't (please don't)
Let it end (let it end)
There's so much more
I want to give to you

Yeah, yeah

I want to hold you
And whisper in your ear
How much I love you
Baby you'll hear

Out of words
There's no way to
Express how I feel
It's not easy to be
Out of words
Got nothing better to say
Than that I love you
More than words can say

Aahhhh
Out of worlds

Oh you, took my hand
You told me we will be eternally
In the night (in the night)
Outside (outside)
You were standing on
Your knees and prayed

I want to hold you
And whisper in your ear
How much I love you
Baby you'll hear

Out of words
There's no way to
Express how I feel
It's not easy to be
Out of words
Got nothing better to say
Than that I love you
More than words can say

Aahh, ooh

Out of words
There's no way to
Express how I feel
It's not easy to be
Out of words
Got nothing better to say
Than that I love you
More than words can say

There's no way to
Express how I feel
It's not easy to be
Out of words
Got nothing better to say
Than that I love you
More than words can say

Out of words
I really love you baby, baby
Out of my words
Got nothing better to say
No, no, no, no
Got out of my words

Out of words
