The Echo

Da Buzz

It's an echo...
It's written in the stars
I's an echo, and it's written in the stars

It's never easy to leave and say goodbye
So if you tease me it's just a waste of time
There are some answers I really need to find.
It's so confusing, I guess I'm lost this time
I, I pretend I'm not worried
Cause you are the one I believe in, I'm here for you.
Let me know if there's a chance for us

Can you hear the echo
Surrounding our broken souls
We really got to move on
We're waiting, for a sign to clear our minds
It's written in the stars
The echo, surrounding our broken souls
We really got to move on
We're waiting, for a sign to clear our minds
It's written in the stars, written in the stars

The mystery, in the air tonight
Gives me power to, interpret clues from you
That will help me, to find the hidden key
To your lovely heart, I try to find it
Life breeze sweet through the landscape
I wanna show how much I really want you
I'm here for you. Let me know if there's a chance for us

Can you hear the echo
Surrounding our broken souls
We really got to move on
We're waiting, for a sign to clear our minds
It's written in the stars
The echo, surrounding our broken souls
We really got to move on
We're waiting, for a sign to clear our minds
It's written in the stars, written in the stars

Tell me if it's hard to show me what you want
I need to know, should I stay or should I go
Tell me if it's hard to stand next to me and
Say that we are meant to be.
Couldn't it be great to start a brand new day
Just you and me in a fantasy
I'm looking for the time what ever it could be
I'm here for you
Let me know if there's a chance for us.

Can you hear the echo
Surrounding our broken souls
We really got to move on
We're waiting, for a sign to clear our minds
It's written in the stars
The echo, surrounding our broken souls
We really got to move on

We're waiting, for a sign to clear our minds
It's written in the stars, written in the stars

We're waiting, for a sign to clear our minds
It's written in the stars, written in the stars
