

Without Breaking

Da Buzz

The way that we are
The way that we feel
Are reasons for acting the way we do
And if you just ask, you find out the truth
Don't have to dream your life way

You'll find everything ...
You just gotta say what's on your mind
You'll see, wonders happen, before you're out the door

Say what you want, what you need
You can make it
Say that your heart will go on
Without breaking
All that you do, that you feel
You can make it
Say that your heart will go on
Without breaking

Say what you want, what you need
You can make it
Say that your heart will go on
Without breaking
All that you do, that you feel
You can make it
Say that your heart will go on
Without breaking

You open your eyes
And you see life, waiting for you
To reach out your hand
Just give love a chance
And prove that you know
You shouldn't waste the time you have

You'll find everything ...
You just gotta say what's on your mind
You'll see, wonders happen, before you're out the door

Say what you want, what you need
You can make it
Say that your heart will go on
Without breaking
All that you do, that you feel
You can make it
Say that your heart will go on
Without breaking

C'mon, tell me
There's no time for thinking
Gotta show me what you're feeling
That's the way to do it
Love will come around, love just comes around

You gotta show me what you're feeling
That's the way to do it

You'll find everything worthwhile
You just gotta say what's on your mind
You'll see, wonders happen, before you're out the door

Say what you want, what you need
You can make it
Say that your heart will go on
Without breaking
All that you do, that you feel
You can make it
Say that your heart will go on
Without breaking

Say what you want, what you need
You can make it
Say that your heart will go on
Without breaking
All that you do, that you feel
You can make it
Say that your heart will go on
Without breaking
