

# Your love will shine on me

Da Buzz

To shine on me  
To shine on me  
Shine on me  
To shine on me  
Shine on me

I wanna tell you I want you  
I wanna tell you I care  
I wanna love you forever  
Every day, every night you hold my hand

I wanna give you a flower  
I wanna give you the world  
I wanna dream this together  
'Cause I know that your love will shine on me

Your love will shine on me  
When I look at you I make you feel so free  
Baby I know inside my heart  
Your love will shine on me  
When you think about me you have everything  
Baby how can I make your love to shine on me?

When you come a little closer  
You make me feel alive  
Oh, when you go around baby  
'Cause I know that your love will shine on me

Your love will shine on me  
When I look at you I make you feel so free  
Baby I know inside my heart  
Your love will shine on me  
When you think about me you have everything  
Baby how can I make your love to shine on me?

Shine on me  
To shine on me  
Shine on me

I know we could be so right  
And we could be out of time  
And when I look at you, you make me feel so free

Your love will shine on me  
When I look at you I make you feel so free  
Baby I know inside my heart  
Your love will shine on me  
When you think about me you have everything (you have everything)  
Your love will shine on me

Shine on me  
To shine on me  
Shine on me  
To shine on me
