

Birds

Daan

What is that sound? sounds like fun
tell me why, why do these birds sing?

They sing because they don't know when they'll die
I've got a smile because I know they won't fly

Hey, take a look at these birds

They're so gay, make them go away

They sing because they don't know when they'll die
I've got a smile because I know they won't fly

Say it boy, I load my gun

Point at bird, bird falls down

But why did he have to sing?

They sing because they don't know when they'll die
I've got a smile because I know they won't fly

They sing because they don't know when they'll die
I've got a smile because I know they won't fly
