

Flash Gordon

Daan

Flash gordon on a lightstick with the guns hanging low
flash gordon with a nice prick and the power to go
Flash gordon sighting 'neath the cut of a wood
Flash gordon on a lightning 'neath the train that is stood

Now the train that it stook, yeah, the pain that it took
Flower to the land, all the pain that it mook
All the thoughts that it would

Flash gordon in the nigh airbag done city wrongs and strikking
cows
Flash gordon with a power string, he don't live that life
He don't need a life again, always sunning up the morning

Flash gordon on a lightstring with the powers above
Flash gordon with the lights up above
Flash, flash gordon on the lights up above
