Dååth

All must change  
It all must change

Owned but con-  
Cealed  
Coma, tunnel vision  
Undercover down  
Midtown mutation

Hold the insect down  
Hostile automation  
Keys to unlock your-  
Self  
All must change

Deep, deep in me  
Hidden, keep  
Filling this void  
Inside of me  
Is this the way I'm  
To be?  
Building a wall  
Around me  
Is this the way I'm to be?

Non stop shaking  
Now your mind  
Sickens  
And your thoughts  
Collapse  
But you fight sug-  
Gestion  
Stop the navigator  
Dead

Shaken  
Forsaken  
What's taken  
Is making  
The logic  
Unmoving  
Unfeeling  
And stealing

Over load my senses  
With multiple con-  
Nections  
Of forgotten compli-  
Cations  
Aborting jumpers  
In all my cells

Someone bought  
The servant of  
Broken laws  
My summoner  
Overloads

For celibate arrow  
For life without love  
Is a  
Name I know I can't  
Say  
You put on a mask  
And go to the termite god  
A definite goal  
Accomplish a mas-  
Sacre  
To open a different door
