

# Goodbye

Dada

I know you'll always be inside me  
No matter where I go  
So go and tell me what's on your mind

It seems like part of you is already gone  
The rest is fading fast  
I can feel the wind come to take you away

So look into my eyes and say  
The words to me

[Chorus]

"Goodbye." I know it's hard to say  
"Goodbye," if there's no other way  
The truth will only set you free, so please  
Don't cry; it won't make it well  
Don't lie; I can always tell  
It's time for you to say the word I fear  
No tears; "goodbye"

Is there anyone I could have been  
To make you feel that way?  
Someone to turn into for one last night  
Two black birds caught inside of a church  
No one to set them free  
Except for a window that they'll never find

So look into my eyes and say  
The words to me

[Chorus]

So look into my eyes and say  
The words to me

[Chorus]

The word I fear  
"Goodbye"  
Through tears (through tears)  
"Goodbye"
