

## The Next Train Out Of My Mind

Dada

There's a road that runs through the desert  
Another that leads to the sea  
I keep my map secure in my wallet  
'Cause someday I just might leave, I just might leave  
I'm feeling buried alive in Arkansas  
So much clean air, I can't breathe  
I got a horoscope that says I'm a winner  
And a few good ideas up my sleeve  
So come on girl, we'll leave tonight  
On the next train out of my mind  
We'll look out on the world  
From the next train out of my mind  
I got magazines with pictures of cities  
Messin' up my mama's car  
I got an infomercial number  
Connection to make me a star  
So come on girl, we'll leave tonight  
On the next train out of my mind  
We'll look out at the world  
From the next train out of my mind, out of my mind  
(solo)  
Somebody already climbed every mountain  
Somebody already walked on the moon  
Ain't nothing left to discover  
Ain't no reason to leave this room  
And when I get up in the morning  
And I stand there paralyzed  
'Cause I look at my own reflection  
You know I'm seeing my old man's eyes  
So come on girl, we'll leave tonight  
On the next train out of my mind  
We'll look out on the world  
From the next train out of my mind  
Come on girl, we'll leave tonight  
On the next train out of my mind  
We'll look out at the world  
From the next train out of my mind  
I got magazines with pictures of cities  
They're messin' up my mama's car  
I need to get me a Mel Bay book  
And learn how to play guitar  
Play guitar
