

# Leave

## Daggers

I've been drinking, drive me home  
Everyone here just makes me feel old  
And I don't care if you want to stay  
I'm not going alone, at least not today

I wanna go where the street lights end  
And these people were never my friends  
One day we could move away  
You're not ready, but you listen when I say

We don't know what we're missing  
But we'll miss it if we stay  
Woo, woo. (2x)

Wherever we go, things will never change  
You'll always be a part of me  
But I don't wanna die in this place

Whatever you do just don't ask me to stay  
'Cause nothing's gonna get in my way  
I've never had a doubt  
I've got it figured out  
It's time for me to leave you now  
I'm gonna leave you now

Another small town sacrifice  
Think about the loss and think about the life  
We could have if we move away  
Come on, listen to me when I say

You don't know what you're missing  
But you'll miss it if you stay  
Woo, woo. (2x)

Wherever we go things will never change  
You'll always be a part of me  
But I don't wanna die in this place

Whatever you do just don't ask me to stay  
'Cause nothing's gonna get in my way  
I've never had a doubt  
I've got it figured out  
It's time for me to leave you now

I feel foreign in the place I know (3x)

We don't know what we're missing  
But we'll miss it if we stay (2x)

Wherever we go things will never change  
I'm sick of being so naive  
But I don't wanna die in this place

Whatever you do just don't ask me to stay  
'Cause nothing's gonna get in my way  
I've never had a doubt  
I've got it figured out

It's time for me to leave this town
