

# Kiss Me Kraken

Dagoba

With the flow came the fail  
Hell on Earth , sea wolves Heaven  
You better know how to sail  
Lands concede everything to the ebb

Kiss me  
Fear the beast with the empty sight  
Kiss me  
(Its) shadow chasing the sunlight

I embrace the wave as I'm sinking in  
Diving into an endless waterfall...

Sea monster. Legendary.  
Turns the seas into chaos.

The world get drowned. Silent and deep.  
In a single move hides the sun with is fin.  
Frozen blood, liquid rage  
Darkest eyes, eight legs

Kiss me  
Fear the beast with the empty sight  
Kiss me  
(Its) shadow chasing the sunlight

I embrace the wave as I'm sinking in  
Diving into an endless waterfall...

With the flow came the fail  
Hell on Earth, sea wolves Heaven  
You better know how to sail  
Darkest eyes, eight legs
