

Loving not anymore  
Hopin' no more  
The prince charming you'll never  
Wait no more  
A pornstar you were  
A star you wish you were  
Your honor's gone  
Away from the woman you were

Porn scars !  
Mutilated til' your mind  
Porn scars !  
Your life will never be like before

Deep in your flesh  
You still feel the crush  
This sweet men's gift  
You've so much drunk or licked  
Thousands of positions  
Have broken your body  
None opposition  
"May my soul be broken..."

Porn scars !  
Mutilated til' your mind  
Porn scars !  
Your life will never be like before
