

# The Great Wonder

Dagoba

Time has cometo lose it all  
Fire and oceans entwine,  
Memories fading away like shooting stars  
The party makes me lose control...  
the world is set on fire  
But I don't care where the Hell I'll be driven!

The great wonder  
What's coming after?  
The great wonder  
It's all that we'll bring when the game is over...

I'll try to mak it fine for a last time  
The upside is down  
Death is a round  
But I won't stop hitting the ground...

I call the rain and watch the storm  
I see that everything's lost (but)  
I'm dancing after all...

Time has come to lose it all  
I don't care where the fuck I'll be driven!

The great wonder  
What's coming after?  
The great wonder  
It's all that we'll bring when the game is over...

I call the rain and watch the storm  
I see that everything's lost (but)  
I'm dancing after all...

The great wonder  
What's coming after?  
The great wonder  
It's all that we'll bring when the game is over...
