

Belittled And Beaten Down

Daisy Chainsaw

I feel better if I know I'm better than you you sad loser
'Cause you're just a pygmy who's shy
Everyone knows that there's nothing that you say that makes
Any sense but we'll take you along for the ride

Belittled and beaten down

You're just a puny annoyingly cutie who couldn't keep up
With us no matter how hard you tired
Leave the important things up to the big boys
'Cause you are amusing and we wouldn't want you to cry

Belittled and beaten down

Belittled and beaten down

I have a slot I can fit into nicely or so I am told and I certainly struggle to try
You and your oddly shaped squat little body and total naivete inspire laughter every time
I watch my back now for twisted and gnarled little bitter souls who'd watch me die

Belittled and beaten down
