

Looking For An Angel

Daisy Chainsaw

Looking for an angel looking for an angel
Will you won't you help me cure my blues
My whole life depends on luck with you
Angel won't you make my dreams come true
Work work work hard work work work hard
Looking for an angel looking for an angel
Life won't be mundane if I find you
Funny how there's little I can do
Angel won't you make my dreams come true

Work work work hard work work work hard
I know you'd need my hand if you feel
I know even you must go through hell
Looking for an angel looking for an angel
Show me that there's something that's of use
Life won't be mundane if I find you
Angel won't you make my dreams come true
