## **Looking For An Angel**

## **Daisy Chainsaw**

Looking for an angel looking for an angel Will you won't you help me cure my blues My whole life depends on luck with you Angel won't you make my dreams come true Work work work hard work work work hard Looking for an angel looking for an angel Life won't be mundane if I find you Funny how there's litle I can do Angel won't you make my dreams come true

Work work work hard work work work hard I know you'd need my hand if you feel I know even you must go through hell Looking for an angel looking for an angel Show me that there's something that's of use Life won't be mundane if I find you Angel won't you make my dreams come true
