

## Anywhere Under The Moon

Dala

Broken lines, yellow signs,  
I can feel your soft shoulder  
All the trees, follow me  
In single file

The last power line, my cell phone died  
I don't even know your number  
So I drive all the way to Winnipeg

And I could be anywhere,  
Anywhere under the moon  
And I could be anywhere  
Anywhere but I'm with you

Midnight dream, seventeen  
So afraid I'm missing something  
Count the miles, to your face,  
So I drive, to Winnipeg

And I could be anywhere,  
Anywhere under the moon  
And I could be anywhere  
Anywhere but I'm with you
