It's Not Over Now

Dale Watson

I can't believe you left me in the rain Come back to me, I need you in my life These tears of mine have washed away my smile I need you by my side,baby hold me tonight

You promised me forever Forever you and me Say that you love me Say you'll never leave

Tell me it's not over now I can't believe it's true Tell me it's not over now I'm still in love with you Tell me it's not over now Please don't say goodbye Tell me it's not over now 'Cause without you I'd just die

Just one kiss, one touch is all I need Hold me in your arms and say that you'll be mine It hurts so bad, oh it hurts so sad Don't leave me alone, don't say goodbye tonight Bridge Oh promise me forever Forever you and me Say that you love me Say you'll never leave oh...

Tell me it's not over now (say you love me oh) I can't believe it's true Tell me it's not over now (tell me it's not over) I'm still in love with you

Please, won't you tell me
Why you've changed your mind
Just open up your heart tonight
I'm gonna love you
For the rest of my life
Well the way that I'm feeling
It will not be changing
'Cause my heart is bleeding
And I can't stop needing you now...

Tell me it's not over now (Oh tell me) I can't believe it's true Tell me it's not over now (Tell me it's not over) I'm still in love with you (In love) Tell me it's not over now (Baby how could you leave me standing in the rain) Please don't say goodbye (Come back to me, come back to me) Tell me it's not over now (Come back to me, oh tell me) 'Cause without you I'd just die Tell me baby, tell me baby It's not over, please don't say goodbye Without you I'd just die Tell me baby, tell me baby...
