

## Second to None

Daley

Everybody's out of line, telling me what I need  
Well I'm not blind, I see fine  
Yeah, I'm where I'm supposed to be  
A million things I have to do  
But this distraction's really all I need  
'Cause can't nothing compare to my number one priority  
And if this ain't what we're here for then tell me what is

Maybe I'm wrong, maybe I'm foolish  
A lifetime is a long time  
So I might be crazy, but I don't put nothing before you  
Without you to hold, this life don't mean nothing, no  
And nothing comes close to being with you  
'Cause you come second to none  
Baby, second to none

I'm sleeping too late, never on time  
You give me bad habits but it's alright  
I give you all my days, ooh, and nights  
To make it all good I'd give you my life  
'Cause I'm caught up in a feeling that I can't escape  
Losing my focus getting carried away in thoughts of you  
Now everybody else I gotta put on hold  
You're the only one you know you run the show  
Yeah you're the one that I choose and  
If this ain't what we're here for then I don't wanna know

Maybe I'm wrong and maybe, maybe I'm foolish  
But a lifetime's a long, oh it's a long time  
So I might be crazy, but I don't put nothing before you  
Without you to hold, this life don't mean nothing, no  
And nothing comes close to being with you  
'Cause you come second to none

And I could have all the money in the world but  
I might as well be dead broke  
If I can't spend my time on you  
'Cause there ain't nothing else I want  
No, there ain't nothing worth all my intentions to you  
I got a one-track mind you're the first in line, it's true

Maybe I'm wrong, maybe I'm foolish  
A lifetime is a long time  
So I might be crazy, but I don't put nothing before you  
Without you to hold, this life don't mean nothing, no  
And nothing comes close to being with you  
'Cause you come second to none  
'Cause you come second to none  
'Cause you come second to none  
'Cause you come second to none  
'Cause you come second to none
