

Anything

Damage

If you could have something
Anything that you want it
Tell me, girl, what would it be
There is no limits to do
Anything that you want to
You could have everything you need

I've been waiting all my life
To have someone to talk to
So, tell me now, could it be
That I found someone for me

When I see your smile
I'm walkin' on a crowd
I would do anything to have you near me
When I see your face
It makes my heart race
I would do anything to have you near me, baby

Give me some time
To tell you what's on my mind
I have so many things that I want to say
I wanna see you, be a part of what you do
Everywhere, you lighten up my day

You know that I would do anything
Oh, ooh..., yeah, yeah, oh, yeah...
Anything, anything
Girl, I would do anything...
